**Racial Wealth Gap Simulation**

This learning activity takes about 90 minutes, including opening and closing prayers.

*The Racial Wealth Gap is an interactive tool that helps people understand the connections among racial equity, hunger, poverty, and wealth. It is a good first step for people unaware of structural inequality, a support tool for those who want a deeper understanding of structural inequality, and a source of information for everyone who wants to know the quantifiable economic impact of the policies that have widened today's racial, hunger, income, and wealth divides.*
